

## CLAIMS

1. A Combination Hydration & Temperature Regulating Device comprising: two interior compartments to include a FIC (Fluid and Ice Compartment) and a TSRC (Temperature Stabilizer/Regulator Compartment), an exterior jacket, a lid/spout unit, removable straps and Velcro strips.
2. A Combination Hydration & Temperature Regulating Device in accordance with Claim 1 that is shaped in a semi-U formation to be draped around the user's neck to promote hands-free activities.
3. A Combination Hydration & Temperature Regulating Device in accordance with Claim 1 wherein an accessible compartment (FIC) is available for storing liquids and solids (such as ice) for the user's consumption.
4. A Combination Hydration & Temperature Regulating Device in accordance with Claim 1 wherein an accessible compartment (TSRC) is available for inserting a re-usable heating or cooling unit used in the process of achieving desired temperatures of both the liquid and the user.
5. A Combination Hydration & Temperature Regulating Device in accordance with Claim 1 that includes a removable lid with a closable drinking spout for filling and dispensing fluids.
6. A Combination Hydration & Temperature Regulating Device in accordance with Claim 1 that includes a removable exterior jacket to promote user comfort, enhance product durability, and be interchanged with other jackets for fashion purposes.
7. A Combination Hydration & Temperature Regulating Device in accordance with Claim 1 that includes removable, adjustable straps and Velcro that are applied when a user desires a more secure fit.

CLAIMS (Continued)

8. A Combination Hydration & Temperature Regulating Device in accordance with Claim 1 where the TSRC is located on the inner portion of the semi-shaped U to allow for heating or cooling of the stored liquids as well as the user.

9. A Combination Hydration & Temperature Regulating Device in accordance with Claim 1 wherein a hook is located on the spout/lid and the opposite end of the unit to fasten straps if desired for a more secure fit or to use as a shoulder strap when carrying the unit.
